Professional Summary

A skilled Front-End Developer with over 3+ years of professional experience specializing in Next.js, Tailwind CSS, Strapi, and Sanity CMS. Expertise in building user-friendly web applications, structured content models, seamless integrations, and scalable e-commerce solutions. Proficient in MongoDB, PostgreSQL, GraphQL, and API integration, with deployment experience on GCP and Vercel.

Technical Skills

- **Programming Languages:** JavaScript, TypeScript, HTML5, CSS3 (+6 years)
- **Frameworks & Libraries:** Next.js, React.js, Angular (+3 years)
- **Styling & UI:** Tailwind CSS, SCSS (+2 years),
- **Content Management Systems:** Sanity, Strapi (+2 years)
- **Databases:** MongoDB, PostgreSQL (+2 years)
- **API Technologies:** GraphQL, REST API, GROQ (+2 years)
- **E-commerce Platforms:** Shopify (+2 years), Medusa.js (1 year)
- **Hosting Platforms:** Vercel (+3 years), Google Cloud Platform (GCP) (+2 years)
- **Version Control:** Git, GitHub, GitLab (+5 years)

Work Experience

Frontend Developer (2022 – Present)

Gobi Cashmere

Utilized Next.js, Tailwind CSS, Vercel and Strapi to build scalable and visually appealing web interfaces.

- Worked with MongoDB for efficient database management and Post API for server communication.
- Utilized Sanity CMS to manage structured content with real-time previews and implemented GraphQL for seamless data fetching while integrating Shopify for e-commerce functionalities.
- Leveraged Google Cloud Platform for deployment and infrastructure management.

Frontend Developer (2021 – 2022)

Monlogistic

- 3 months of experience in front-end development for logistics systems.
- Used Angular.js to create dynamic user interfaces and GitLab for version control and collaboration.

Frontend Developer (Intern) (2021 – 2021)

Erdenes Solution

2 months of hands-on internship experience building responsive web interfaces.

- Used Sass and Bootstrap to create modern, mobile-friendly designs.

Education

Bachelor of Information Technology

Mongolian University of Science and Technology

2018 – 2022

Projects

[GobiCashmere.com](https://gobicashmere.com)

E-commerce Website

Technologies Used: Next.js, Sanity CMS, Shopify, Tailwind CSS, Algolia

- Led the development and maintenance of a **headless e-commerce platform**, ensuring a seamless online shopping experience.
- Integrated **Sanity CMS** for real-time content management and flexible customization.
- Implemented **Shopify** for e-commerce functionalities, including payment systems, product catalog management, and secure checkout.
- Used **Tailwind CSS** to create a fully responsive design, ensuring optimal performance on all devices.
- Focused on **performance optimization**, reducing load times and enhancing customer engagement.

- Collaborated with cross-functional teams to maintain brand consistency and meet high-quality standards.
